WHY TELLUS SPAIN?

Tellus College is a vocational training provider with over 15 yrs' experience in delivering Work Based, Project Based and Technical Based Learning programmes across Europe for more than 2,000 participants each year.

Our vocational programmes are funded by Erasmus+, ESF, PON and Master dei Talenti Neodiplomati schemes and we work with more than 500 educational partners throughout Europe including vocational schools, local authorities, chambers of commerce, governmental bodies, NGOs and large educational consortia.

Tellus Spain is part of Tellus College and has been successfully delivering effective and exciting projects in Salamanca since 2012. Home to the 'purest' spoken Spanish this dynamic city offers a wealth of life changing opportunities for all our students.

WORK BASED LEARNING

Our programme of work based learning provides work placements within a wide range of reputable, local businesses.

This is not just work experience but a real life experience that enables students to improve their communication abilities and develop practical skills that will prepare them for the professional challenges ahead. At Tellus we are proud to be creating such life changing programmes.

PROJECT BASED LEARNING

Tellus College understands that not all students are ready to gain work experience abroad. This could be for many reasons such as language skills, the age of the students or because the sectors are highly specialised.

Our project based learning programme is the ultimate environment for those looking to consolidate their vocational skills before entering work.

Students are given practical project based tasks culminating in group presentations of key objectives and learning outcomes.

The programme has clear relevance to the world of work and qualified industry experts to prepare students in the specific vocational sectors. It is, quite simply, the complete learning and training experience.
